except panels

## Notes

Should the product have covers in different fabric categories, the higher price will be applied. Structure on castors: the codex changes, the price remains unchanged.

The side and back panels are attached to the aluminium legs by means of pins: when they are lifted, they detach from the frame. The padding and panel covering ensure effective soundproofing. The side and back panels do not have removable covers, while the leaning seat, backrest and armrest cushions have removable covers.

Cable management (cod. 21Z): electrical connection module available.

## ELEVEN HIGH BACK

Pearsonlloyd, 2016

Side and back panels attached to the aluminium legs of the various models are the distinctive feature of the ELEVEN HIGH BACK upholstered collection.

Its versatile nature is demonstrated in the "privacy" version, a light, intimate and functional architecture created by placing two sofas facing each other and closing one side with a panel.

A natural complement is the Eleven High Back work versions which include a work surface that transforms the sofa into an office capsule, designed to allow the user to carry out his or her activities in the modern soft seating spaces of lounges, airports and hotels.

ELEVEN HIGH BACK, in its many versions, offers flexible and sophisticated solutions for the different needs of contemporary environments.
