

# Neil Twist chair

Designer	Jean Marie Massaud
Year	2020-2021

The iconic Neil collection, designed by Jean Marie Massaud, stands out for its refined design, defined by the exclusive rope weave that envelops its structure.

In the Chair version, it seamlessly fits into sophisticated outdoor settings, whether residential or contract, delivering exceptional comfort and functionality. The steel wire sled base underscores the chair's contemporary character, while the rope, available in four colours, adds a distinctive and bold aesthetic. A sartorial detail, such as the contrasting shiny anthracite stitching, enhances the collection with an additional touch of elegance.

## Rope shell

Load-bearing seating structure made of steel, woven with high-tenacity polyester cord, solution-dyed, guaranteeing high resistance to atmospheric agents, light, and abrasions, with stretch resistance. Handcrafted and 100% made in Italy.

## Accessories

Protective rain cover in light grey colour, specifically for outdoor products, waterproof, made of 100% polyester, outside with acrylic coating, inside with acrylic resin coating. Its characteristics are emphasised by its fully fungicidal Teflon finish.

Each rain cover comes with a closable slip cover, so that it can be folded and kept correctly when not in use.

## Frame

Load-bearing frame in matt epoxy powder-coated steel rod.
