

## SuperWire S3

Designed by Formafantasma, 2025

90W - 6450lm - 2700K - CRI> 90

SuperWire is the first family of modular lamps designed by Formafantasma for Flos. A magical and poetic project, with an essential design but a great stage presence, which recalls the work of the great glass masters of the last century. Made of planar glass and polished aluminum, its design originated from the development of a custom-made light source that emits a warm and homogeneous light. Made up of one or more hexagons of planar glass connected by a polished aluminum element, SuperWire lights up its entire surface thanks to a new source: a very thin, flat, soft, flexible LED strip measuring up to one meter, which emits a warm and homogeneous light along its entire length and which can be easily removed for replacement and repair, unique in the panorama of LED bulb-less lamps. Suspension models feature a concealed downlight module for functional accent lighting on tables, complemented by the warm, diffuse glow of the vertical modules.

### Main specifications

EAN	8059607073698
Mounting	Suspension
Environments	Indoor dry location
Light source type	LED
Light sources included	Yes
LED type	Filament LED
Power (W)	90
Lumen Output (lm)	6450

### Physical

Colour	Steel
Length (mm)	295
Cord length (mm)	3000
Canopy length/diameter (mm)	216
Canopy width (mm)	216
Canopy height (mm)	47
Net weight (kg)	22
Package volume (m3)	0.33
IP internal	20

### Ecodesign and Energy Labelling

This product contains a light source of energy efficiency class E

Replaceable (LED only) light source by an end-user

Replaceable control gear by an end-user

Photometric

Lighting type	Total
Light distribution	Asymmetric
CCT (K)	2700
CRI>	90
Extreme cut off	No

Electrical

Insulation class	I
Frequency (Hz)	50/60
Main voltage (Vac)	100-240
Power supply	Remote included
Dimmable	Yes
Power supply type	Dimmable
Dimming interface	Dimmer Integrated
Batteries inside	No
