

USM Kitos M/E Table

Each table of the USM Kitos M and E family offers integrated smart solutions for electrification, excluding freestanding.

Why USM Kitos M?

The “M” in its name stands for mechanical spring-loaded height adjustment; adjustment time approx. 1 second with zero energy consumption. This system is more than 10 times faster than the electronic equivalent and has an extremely long operating life.

Why USM Kitos E?

Maximum functionality and captivating design – USM Kitos E unites all requirements in one modern workplace: continuous height adjustability and maximum stability. A distinction is made between fixed and motor-driven legs in the E1, E2 and E3 models.
